

MOTOR POOL MESSENGER

Military Transport Association - North Jersey

JULY 1994

CALENDAR:

7/11 - Meeting, September's, 8 p.m. as usual

8/10-14 - MVPA National Meeting, Fort Indiantown Gap, PA. We are one of the host chapters. Please be prepared to work as well as enjoy the excitement.

9/11 - Ray Bentley meet, Adams Metal at Ledgewood. Details later.

9/23-25 - MTA Rally, Warren County Fairgrounds. Participation by all will be needed.

There are no further parades presently scheduled, but perhaps one or two more may be offered later. As to the future, many chapter members are unable to come to an occasional club meeting. If you are not able to sign up as a parade participant at a meeting but wish to attend, please call Al Axelrad to let him know. Call Al at 201-884-0051.

Al wishes to extend his most sincere thanks to all of those who have been parader's this season. We all know that the first few parades are fun and then attendance becomes a chore. All of those who have helped are thanked. To you who do not have parade-worthy vehicles yet; attend anyway. Ride with someone else. An extra person to help wave at the crowds is always welcomed.

We in turn need to thank Al for his efforts in obtaining contacts, handling the contracts, calling out the troops, sounding the cavalry charges, and worrying about the aftermath(s).

FOR SALE:

M-38 windshield, \$70. Civilian tow bar, good for Jeeps or cars, adjustable style, \$85. Call Gary Schultz, 908-852-9567

MB frame \$150, engine \$25, transmission, transfer case, make offer. Serial number MB 197563. Tom Tanis 201-697-7448.

Planer, table mounted. Sears Craftsman. Needs clean-up and new blades. Three quarter HP motor included. \$15. Several fractional HP electric motors. The old kind out of appliances. All have solid cast housings unlike the modern ones. Most have mounting brackets. All work OK (I think). You choose, you pick up, you carry away. Great for buffing wheel or steel wire brush on the work bench. \$5 each. Peter Berendsen, 201-966-1862.

WANTED:

Inner W.S. frame for MB or GPW. Tom Tanis. Phone as above.

Jeep accessories, part 5 -

We have been setting up the preliminaries to many Jeep accessories, and have written about power take-offs and winches. Many of the rear mount tools require the all-purpose three point hydraulic lift. Here is the wonder-tool heart of your farm Jeep. Do you suppose one of these is gathering dust in some nearby garage or barn? MAYBE it could be yours! \$25? Dream on!
