WWII Jeep parts: engine block core, MB 134 cu.in.; transfer case; front and rear differentials; hood and grill; GPW transmission. Also 318 cu. in. Mopar engine and trans, 1976, runs good.; CUCV core block 6.2 diesel; five 151 wheels; complete running gear for 1934 Chevy and new tires. All at reasonable prices. Call Tom Weaver at 201-627-9448.

Jeep accessories, part 13. Now that spring thaw seems just around the corner we can begin to contemplate a whole range of new do-it-yourself's for the Universal Jeep and its neat attachments. Maybe we should smooth the driveway? Perhaps we should contour that back yard. Perhaps we want to sandblast that new vehicle that we just found and to do so need a compressor. Working after dark will be easier if we have a generator for lights. Perhaps the holes need welding and a portable arc welder in our Jeep would be handy. Oh! We will have lots of fun with our Jeep in this warm weather.
